Key selling points

The next generation of the Studio XL, the Studio XL LTE still maintains a vivid 6.0" IPS display and adds improvements in data connectivity, cameras, and performance.

The phablet display enables you to have the maximum viewing experience, measuring at just 9.0mm, the device not only looks good but feels good in your hand.

Capture remarkable photos and videos with an 8.0 Megapixel main camera with LED Flash, and HD 1080p video recording. Also, we have added a 5MP front facing camera for selfie lovers and video calls.

Powering the Studio XL LTE is a speedy Spreadtrum 1.3GHz Quad Core processor paired with 1GB RAM, that will make your smartphone experience smooth and easy.

Lastly, we have added 4G LTE speeds up to 150Mbps for blazing download speeds and fast browsing.

Long-Lasting power

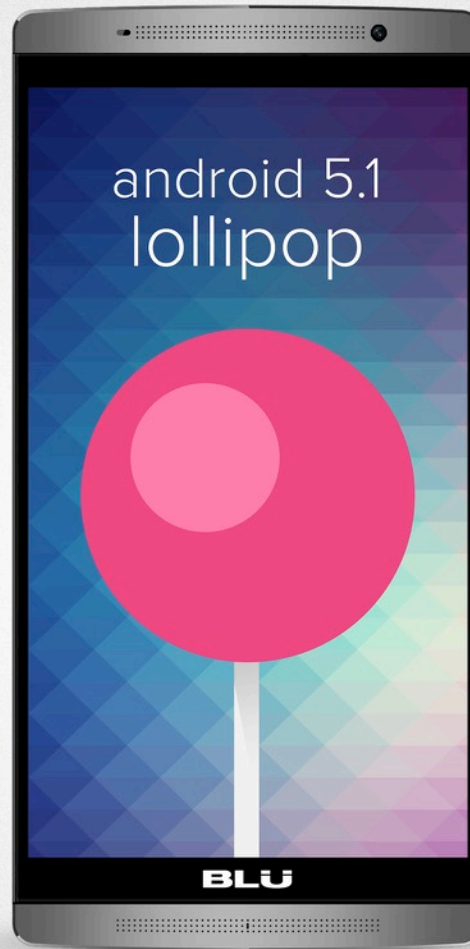

The last thing you need to worry about is how much battery life your phone has left. There is a long lasting 3000 mAh battery on the Studio XL LTE to give you 2 days of standard usage.

BLU

Beautiful design

The Studio XL LTE is designed with the intention to fit a generous 6" display into a compact and slim housing that user can easily carry with them. With a nice sand stone texture finish on the battery cover and a color matched front display décor, the STUDIO XL LTE is the envy of the crowd. The display area also utilizes an all-black frame that gives the front an enlarged surface that makes the active display area even bigger.

New features:

- Redesigned user interface that is more friendly and intuitive.
- Lock screen notifications that offer quick actions as well as quick access.
- Project Volta, which will improve battery life better than any previous version.
- Switching between applications or multitasking is now easier with a complete look at all your open applications.
- Multiple users and guest mode is also now available , so you can share your device with the confidence of your personal information, staying personal.

Dual sim **1** **2**

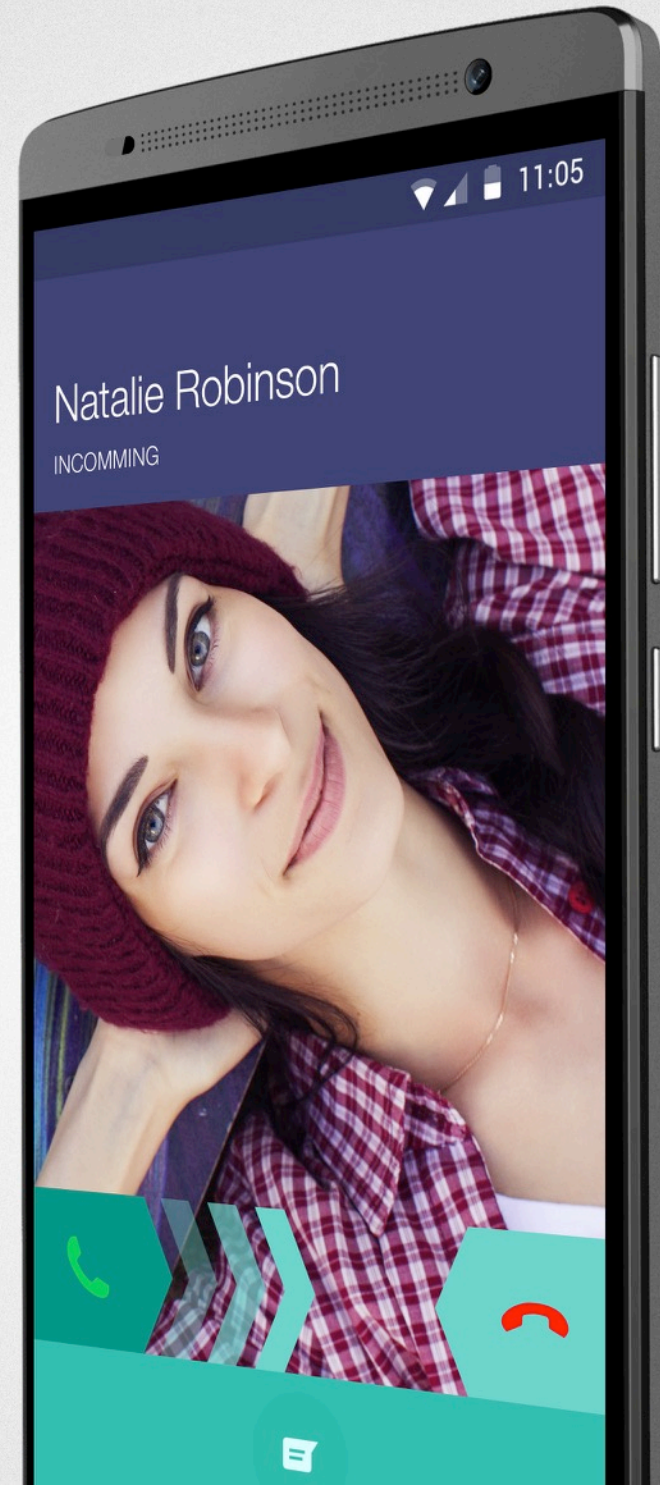

A DUAL SIM gives you several advantages that you cannot let pass by. Having two SIM slots in your mobile device, you won't have to worry about: Exchanging SIM cards from one phone to another · Carrying two phones in your pocket · Remembering to charge two devices.

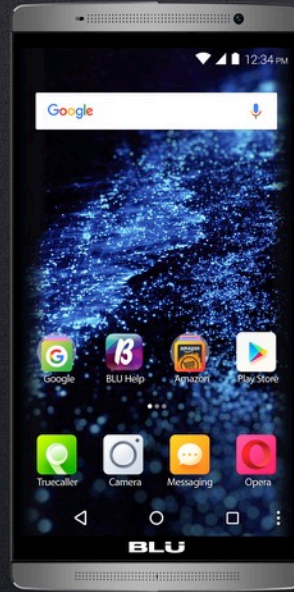

You can even take advantage of different voice/data plans for better rates, better coverage, and separate bills. You can set apart personal from business phone calls. For the international traveler, a DUAL SIM phone could avoid roaming charges by having a domestic carrier SIM and an international carrier SIM.

Unlocked

Stay connected with friends and family while traveling across the country. Get the job done no matter where you are.

The Studio XL LTE comes with 3G 850/1700/1900/2100, 4G LTE 2/4/7/12/17 so you can have coverage across the entire United States with all different carriers; AT&T, T-Mobile, Metro PCS, and the entire MVNO network.
