KEY SELLING POINTS

Never again run out of battery with the Energy X and the long lasting **4000 mAh battery**.

Enjoy watching videos, playing games, and listening to music endlessly on a bright **5.0" HD** screen with **720 x 1280 resolution** and **BLU Infinite View Technology (IPS)**.

Capture all your memories and get extraordinary photos and videos with its **8 Megapixel** autofocus camera. Stay connected with your family and friends with a convenient 2MP Megapixel front camera for video calls and selfies.

Have the latest and greatest with **Android v5.1 Lollipop** out of the box, so you don't need to wish you had the best.

BEAUTIFUL DESIGN

At just **8.8mm** thin, the Energy X houses a powerful **4000 mAh battery**.

The Energy X has color front touch panels for both grey and gold to match each back cover.

SUPERCHARGED

The most frustrating part of owning a smartphone is always the frequency in which you have to charge the battery.

With the Energy series, you will not have that problem as it is built with a 4000 mAh super battery that lasts approximately 3 days with standard usage and over 30 days on standby with just one charge.

TOP QUALITY CAMERA

Rest assured that with the main **8MP** camera, all your pictures will be as perfect as you expect them to be.

For Selfies, you have a **2MP** camera so your picture will look as good as you do. You will have **BLU Final Touch Software**, which has some great enhancement features such as; face slimmer, smooth skin and teeth whitening.

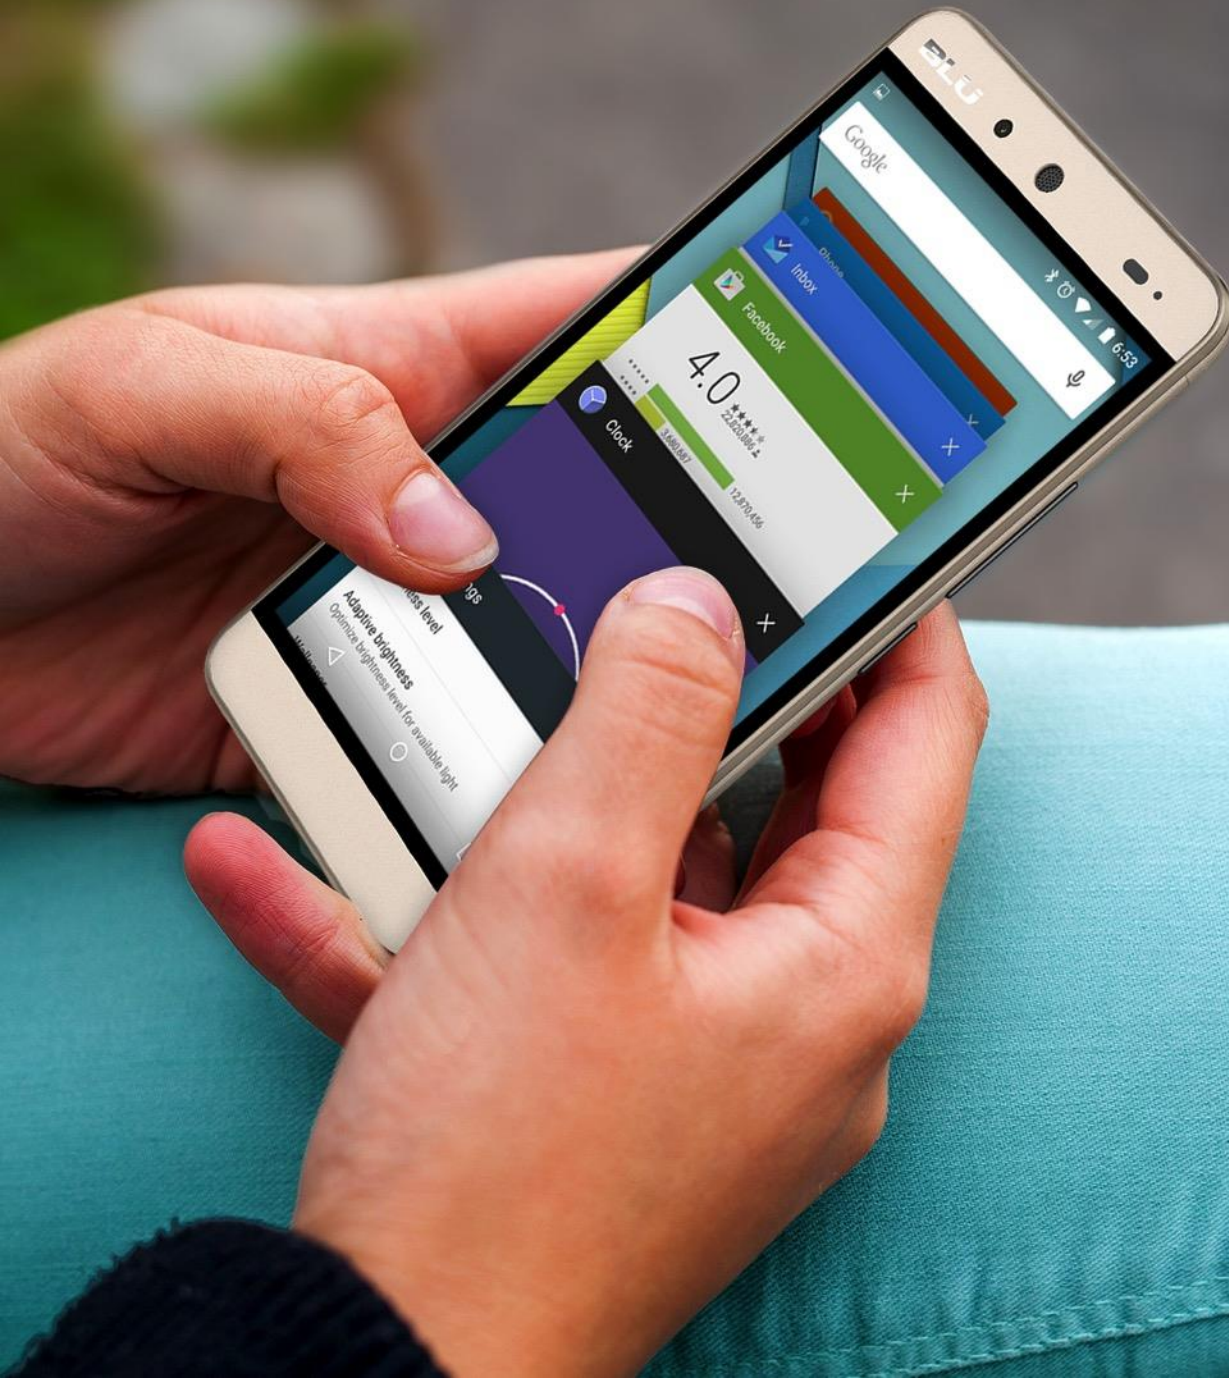

HIGH DEFINITION XL VIEW

Enjoy your digital world from a beautiful **5.0" HD** screen with **720 x 1280 resolution**, that will bring to life all your movies and pictures like never before. The display has **BLU Nex Lens technology (OGS)** that minimized all air gaps and then maximizes clarity and vividness of colors and **BLU Infinite View (IPS)** which will allow you to glance at the screen from any angle.

The finishing touch on the **Energy X** is the front glass with **Corning Gorilla Glass 3**, which gives your smartphone the durability it needs from everyday hazard.

FLAWLESS MULTITASKING

The Mediatek 6580 **1.3GHz Quad Core Processor** is paired with **1GB RAM**, so that you can have a seamless Android experience.

You will have **8GB** of internal memory to store videos, music, and pictures which can be expanded to **64GB** via a Micro SD Slot.

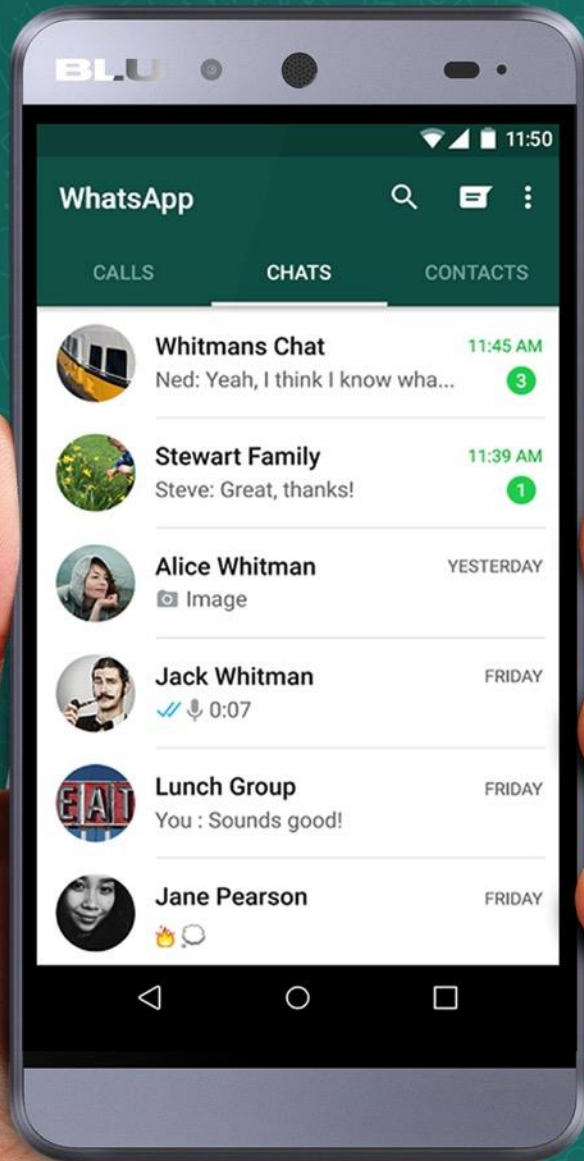

ANDROID V5.1 LOLLIPOP

Android v5.1 Lollipop new features:

- Redesigned user interface that is friendly and intuitive.
- Lock screen notifications that offer quick actions as well as quick access.
- Project Volta, which will improve battery life better than any previous version.
- Switching between applications or multitasking is now easier with a complete look at all your open applications.
- Multiple users and guest mode is now available, so you can share your device with the confidence of your personal information, staying personal.

DUAL SIM CARD

A DUAL SIM gives you several advantages that you cannot let pass by.

By having two SIM slots in your mobile device, you do not have to worry about:

- Exchanging SIM cards from one phone to another
- Carry two phones in your pocket
- Remember to charge two devices

You could take advantage of different voice/data plans for better rates, better coverage, and separate bills. You can set apart personal from business phone calls. For the international traveler, a DUAL SIM phone could avoid roaming charges by having a domestic carrier SIM and an international carrier SIM.
