DUAL SIM CARD **1** **2**

A DUAL SIM gives you several advantages that you cannot let pass by. Having two SIM slots in your mobile device, you won't have to worry about: **Exchanging SIM cards from one phone to another** · **Carrying two phones in your pocket** · **Remembering to charge two devices.**

You can even take advantage of different voice/data plans for better rates, better coverage, and separate bills. You can set apart personal from business phone calls. For the international traveler, a DUAL SIM phone could **avoid roaming charges** by having a domestic carrier SIM and an international carrier SIM.
